Looking for a junior full-stack role in a collaborative team.

WORK EXPERIENCE

Full Stack Developer Intern — Genpact (Remote) Mar 2026 – Jul 2026

- Served as team lead: coordinated tasks, supported teammates and helped drive technical decisions throughout the internship.
- Built MediSlot with the team, a scheduling platform for medical clinics (Next.js, React, TypeScript, Tailwind CSS, FastAPI, PostgreSQL), including JWT authentication, REST APIs and data models with SQLAlchemy and Alembic.
- Shipped additional full-stack features in JavaScript, Node.js, Express and MongoDB; tested endpoints with Postman and debugged for reliability.
- Worked in Git/GitHub with code reviews, applying clean-code and refactoring practices across the codebase.
